Statement of Project Completion

In order to ensure satisfactory delivery of the final information systems project, we ask clients and teams to fill out the following form. This form must be signed and delivered to your faculty advisor before any grade can be issued for the team. The team will see that the signed document is delivered; you can leave it with them. Thank you for the opportunity to serve you this semester.

B. Evidence of System Performance

In addition, the Project Team has verified that the system was installed and in good working order by demonstrating the following use cases in our presence. We, the client, accept the demonstration of these use cases from the computer/server of our choice as sufficient evidence of a fully-working system.
